

# HOW TO PROGRAMME ADDITIONAL MARANTEC REMOTES

- Learning Additional Remotes – once one remote is learnt to the opener, other remotes may be copied from this remote using the **pins**<sup>①</sup> supplied with the remote. Plug the **master remote**<sup>②</sup> into the **remote to be learned**<sup>③</sup>. Press and hold the **button**<sup>④</sup> that has been programmed on the **master remote**<sup>②</sup> and then press and hold the **button**<sup>⑤</sup> to be programmed on the **new remote**<sup>③</sup>. The red **LED**<sup>⑥</sup> on the new remote will flash several times and then stay on. Once the **LED**<sup>⑥</sup> stays solid the new remote has been programmed.
